PIXLR

There are lots of different devices that can take photographs.

Portrait   Landscape

Taking a good picture:

Positioning: Is it obvious what the main subject of the photograph is?

Framing: Have you included everything you wanted to?

Subject: Are you close enough that you can see the detail?

Light: Do you need to add more daylight? Use the camera flash? or use another light source?

How do you take a good photograph?

1. Hold the device **firmly** with both hands.

2. Point the **camera lens** at the subject.

3. Look into the **viewing window** or **screen**.

4. Move the device until you see everything clearly.

5. Press the **capture** button.

Use PIXLR online to edit your photos. **PIXLR**
