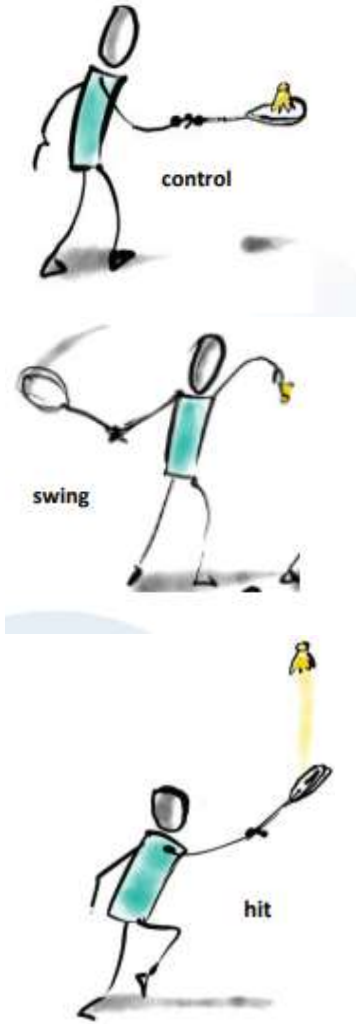
How might I order movement and skills?

Key Vocabulary	Badminton
Court	The marked playing area where a badminton game takes place, divided into left and right service boxes and separated by a net.
Racket	The piece of equipment players use to hit the shuttlecock. It has a handle, a frame, and a stringed hitting surface.
Net	The barrier stretched across the centre of the court. Players must hit the shuttlecock over the net.
Shuttlecock	The light, cone-shaped object hit back and forth in badminton. It can be made of feathers or plastic and is designed to slow down quickly in the air.
Hoop	A piece of PE equipment often used in badminton drills to practise accuracy.
Balloon	Helps children practise control, rally skills, and hand-eye coordination because balloons move slowly and stay in the air longer.


Steps to Success in Badminton
To move into space
To control my body and equipment
To run on the balls of my feet
To control and catch the shuttle with my hands.
To compete against myself and others.
