

What is the best way to throw and catch?

Key Vocabulary	Cricket
Fielding	The act of stopping, catching, or returning the ball after the batter hits it. Fielders work to prevent runs and get batters out.
Wickets	A set of three stumps and two bails that the bowler aims to hit.
Runs	The points scores in cricket. Batters score runs by hitting the ball and running between the wickets.
Catching	Using your hands to safely receive the ball after it has been hit or thrown.
Underarm	A type of throw or bowl where the ball is released from below waist height.
Bowling	Delivering the ball toward the batter to try to get them out. The bowlers arm must stay straight.
Batting	Using a cricket bat to hit the ball to score runs and to protect the wicket
Keeper	The fielder who stands behind the stumps at the batter's end. The keeper catches the balls the batter misses and attempts stumping and run-outs.
