St George's Central CE Primary School and Nursery

Post COVID Pupil 'Catch Up' Strategy Statement 2020-2021

Strategy Statement developed by Mr M Grogan (Headteacher) with the support of the Senior Leadership Team and all staff

Post COVID Pupil 'Catch up' Strategy Statement 2020-2021 to be reviewed termly to assess impact and to add further 'actions' to support priority areas

Updated: March 2021

School information

Number on roll on school site	295
Number on roll on school site (including school based Nursery)	333
TOTAL Number on roll on (including Lancaster Ave Nursery and School based Nursery)	375
Proportion of Pupil Premium children	32.3%
Proportion of pupils with SEND	16.7%
Proportion of pupils who have EAL	8.2%
Catch up allocation amount	£23520
Known impact of school closure due to COVID	 Increased gaps in reading, writing and maths for all pupils, especially those who were unable to engage fully with home learning during lockdown. Social, emotional and mental health needs of children and families exacerbated by the circumstances of lockdown. Reduced opportunity for children to develop their physical speed, strength and agility.
Key priorities	 Ensure all children are attending school regularly. Ensure children are emotionally ready for returning to formal learning. Ensure consistent high-quality teaching and learning across the school. Ensure identified children have access to necessary 'catch up' interventions. Ensure all children have an increase in physical activity. Ensure we 'firm up' our Remote Home Learning system to support learners self-isolating.

	Priority 1: Ensure all children attend school regularly

Allow time for children to discuss thoughts and feelings about returning to school.	Class based staff with all children	Monday 7 th September 2020 and ongoing	With fully timetabled PHSE lessons, Picture News & class worship sessions, children were provided with regular opportunities to discuss current affairs, any worries or concerns within the secure environment of their classroom base. The PSHE leader undertook monitoring of lessons and the DHT undertook 'drops ins' of class worship to ensure these were	Weekly phone calls home provided an opportunity to monitor and address any concerns that children or parents/carers had. The first week back, starting Monday 8 th March, was spent reintegrating children back into school routines and structure. Class discussions and sessions on positive mental health supported children with any worries or	None	All children have settled into their new classes and have adapted back into school life and the new expectations.
			meeting school	anxieties.		
			expectations.			
Regular use of Well-Being room for all children in Early Years and targeted children in KS1.	Class based staff in Early Years and KS1	From Monday 7 th September 2020 onwards	This area of school has been effectively used when needed to support children. As a result, there have been few incidents where individual children's behaviour has escalated. As well as regular planned well-being sessions with targeted children, the room is very much part of the 'Early Years' offer and ensures that children access these activities as part of their regular sessions. There are plans to develop a similar room within KS2 to support our older children.	As a result of the success of the Well-Being room, a second room has been developed in the KS2 area of school to support older children who may benefit from some time out from their usual classroom environment. This room has been used successfully with individual children in KS2 as well as being available for group work and interventions.	None	Sessions support the children's Leuven scales of emotional well-being and involvement to support learning and progress.

Undertake 'I wish my teacher knew' questionnaires.	Class based staff with	By Monday 14 th September	Questionnaires were completed and staff	The 'I wish my teacher knew' questionnaire	£145	We start to understand some of the worries/needs
	children in Y1 – Y6	2020 and ongoing	dealt with individual responses on a personal level. Children responded in an honest and mature way sharing things teachers would never have known about otherwise and gave an insight into what was foremost in children's minds at the time. As a result, staff have been able to provide targeted and timely support to those children who need it most at this time and highlight concerns with parents (who, in some cases, were unaware of these feelings from	was repeated with children on return to school during week commencing Monday 8 th March. This ensured that any concerns which had arisen during the period of lockdown were reported, addressed and acted upon swiftly.		of our children and so are able to support children as needed.
Undertake 'Stirling Well Being' questionnaire.	Class based staff with children in Y4 – Y6	By Monday 14 th September 2020 and then termly	their children). The use of this questionnaire for the first time was well received by children and teachers. Children responded honestly and openly. In doing this, staff have again been able to see which children require further support and they are able to track the well-being of children in order to ensure that any concerns remain a priority.	Year 4 – Year 6 children undertook the Stirling Well Being Questionnaire at the end of term (after having been in school for 3 weeks). Time over Easter will be used to 'analyse' children's scores in comparison with previous results.	None	We have a better understanding of the well-being of children and can provide support where needed.

Staff to undertake 'Everyday Magic' training.	All staff	3 days: 5/1/2021 19/4/2021 3/9/2021	The first session is planned to take place in January 2021. The aim is for staff to further develop an understanding of the brain and see how their approaches can support children to experience 'Everyday Magic'.	Classes used some of the activities from the first session within school and as part of remote home learning. This work gives children an insight into the way the brain works. The impact of this work can be seen on Seesaw and in the way that the children returned to school in a more positive way.	£3000	We are able to take a whole school approach, using Positive Psychology to develop Positive Education strategies which allow children to flourish when accessing all areas of their learning during their time at our school.
Team of staff to complete training from the DFE Well Being for Education Return.	Mrs O'Brien Miss Taylor Mrs Kearns Mr Grogan	Spring Term 2021	Staff started to access courses from Nov 2020 so as to have strategies in place to support Well-being when returning to school.	Due to the recent lockdown we are revisiting this in the Summer Term.	None	Training has been attended by some staff and ideas are shared with others to support practice in school.
Local Authority Music Team deliver the 'Chime Project'.	Miss Taylor and Reception children	Summer Term 2021	N/A	N/A	£756	Children develop communication & language skills, improve attentive listening and responding, broaden vocabulary and understanding. Children aware of self-regulation and wellbeing, with the increased ability to use appropriate dialogue to express own feelings and build relationships with peers. Children to develop gross and fine motor skills through music and movement, playing instruments with control with a good understanding of rhythm and rhyme to support reading and writing.

Mindful Minis Immersive Workshops and staff drop-in session.	KS1 and KS2 Staff drop-in session	Summer Term 2021	N/A	N/A	£799	Both children and staff are able to engage in workshops linked to meditation, breathing, yoga, reflection and positive mindsets. All involved will be able to build upon their resilience as well as developing strategies that
						promote positive mental wellbeing. Children make use of school journals throughout the school year to further promote the importance of a positive mindset & mental health.
Play Therapy sessions in place for targeted children	Mrs O'Brien and 4 KS1 children	Summer Term 2021	Targeted children continued to access sessions in school so as to explore their feelings through play to support positive mental health and well-being.	Targeted children have resumed play therapy sessions once lockdown ended. This has helped to ease their transition back into school. Boxall Profiles have been completed by the play therapist to show progress made.		
Increase outdoor learning sessions through developing a 'Forest School' approach.	Miss Killian with all children (starting with Reception)	Summer Term 2021	N/A	Meeting with Council representatives has taken place regarding the acquisition of the forest land to the rear of school so as to develop an easily accessible 'Forest School' area. We are currently awaiting feedback from the meeting.	£500	Outdoor learning supports children's communication and language development. Active outdoor learning also supports children's well-being and engagement in learning.

				movement skills and apply these into games-based situations. The addition of the REAL PE home		
				learning program has meant that children at home are also able to		
				access physical education more readily.		
Children given the opportunity to attend active extra-curricular clubs, led by teaching staff.	Teaching staff with all classes	Summer Term 2021	N/A	Monday 29 th March saw our Summer Term 1 extra-curricular clubs letter emailed home. Some physical activity provision is included within this (80% of clubs on offer) as we look to build up to providing a service similar to pre-COVID.	None	staff will lead extra-curricular clubs to promote both physical activity and physical education. Children will have an increased opportunity to engage in sport, developing fitness, self-confidence, teamwork and well-being.

	Priority 6: Ensure we 'firm up' our Remote Home Learning system to support learners self-isolating.
